Subject: RE: Follow-up on AE

Thanks Nancy. Our understanding from the Region is that the 11 wells that will be the subject of the initial action by the state were not addressed in any of the correspondence between EPA and the state in the '83-'85 time frame. I'll make sure that you are in the loop as the situation develops. Thanks, P.G.

No prob re meeting room. I am OK. I may have misheard you at one point in the conversation on whether EPA had suggested that the 11 wells were exempt in the correspondence in 1985. Quite honestly, I put the phone on mute and asked Maria Qs until I understood the situation better. I'm fine.

Nancy, please let me know if you'd like me to spend a few minutes tomorrow going over some of the questions you had on the actions in CA on aquifer exemptions. I've got some things I can move around on my calendar if you have some time and would like to discuss.

Sorry for the confusion on the meeting room. We had heard that you were not going to be able to join, and I didn't want Lisa to have to come over here if you weren't going to be here!

Thanks, P.G.
